School for Holistic Development  
of Children with Autism

## About us:

Chrysalis is a school for holistic development of children with autism promoted by Roshinipriya Charitable Trust.

## Our philosophy

*"To nurture the child with autism so that he/she attains his/ her true potential and leads an independent and meaningful life"*

This holistic development will be achieved through appropriate services in a structured environment for children in the age group of 0 - 10. We will teach in the way the child learns rather than in the way we expect the child to learn. We believe that autism is not a life sentence of isolation and withdrawal from society but challenges that need to be met and dealt with. And through our every endeavour we aim to become a centre of excellence for children with autism.

## Our objectives

1. To develop an appropriate curriculum based on individual needs of the child
2. To provide early intervention strategies for the acquisition of academic and life skills
3. To successfully mainstream children with autism into the society
4. To educate and train parents in dealing with the different needs of their children
5. To create public awareness on the needs and abilities of children and adults with autism

## Services

To meet the individual needs of your child, we offer the following services:

- |                          |  |
